## Profit Results

### First Month - October 2001

This is a report of the profit results from AirSource Directors in our organization based on the first month after launching the new AirSource business opportunity. Each person listed below is a current AirSource Director or a brand new Director in AirSource and are listed in the order they were brought into the business. Starting at the top with Gary Burke, each Director is then listed in their direct sponsorship line.

Please keep in mind that the reported profits earned are based on pre-orders and that in many cases no product was available to sell retail for most of these Directors. Some Directors have only received their product shipment at the end of October 2001 and so their profit amount may only represent bonus income with no retail profits included. Also, some of the Directors listed are brand new to the business so their reported profits represent their first month based on either Associate level earnings or Director level earnings as so marked - \*Director % or \*\*\*Associate %.

As you will see by this report, it does not matter when you come into this business nor does it depend on your current position in the sponsorship line. Your profits will depend only your **desire, effort and performance**. We cannot guarantee what you will earn in AirSource for that is only up to you and what you decide to do. The reason for this report is to show you the potential earnings available to you with AirSource based on the incomes of those people who have already started to build their business. If you are coachable and willing to follow a proven process, you will soon be enjoying an exciting income in as little as you're beginning first few months.

### Incomes for the 1<sup>st</sup> Month

<b>Gary &amp; Faye Burke ----- \$42,387</b>			
↓			
<b>Keith &amp; Jean Patterson ----- \$8,000</b>			
↓
